Dear Resident,

**Re: Update Service and Utility Works – Tupia Street**

---

The design and construction for the Port Botany Container Terminal Expansion is being carried out under deed to Sydney Ports Corporation by Baulderstone Hornibrook Jan de Nul (BH-JDN) Consortium. Construction is due for completion in March 2011.

Works to install and connect new underground telecommunications, electricity and sewer lines in the vicinity of Tupia Street, commenced earlier this year. These works will **recommence on Wednesday 29 July 2009** and will continue to be undertaken intermittently over a **three month period, weather permitting**.

A number of service utility providers are involved and at various stages of the installation and connection process approval is required for the works to continue. At times the works will cease for a period of time and then recommence when approval has been granted.

The Project is committed to ensuring throughout the works any dug holes or exposed areas will be back filled and made safe. At the completion of all the services works, the affected areas will be temporarily reinstated by the Project.

Final restoration works will be undertaken by City of Botany Bay Council, at their request.

To find out more about these activities or the Project, or to register a concern or complaint about any activities related to this Project, please contact the Project Information Line (free call) on 1800 177 722, or alternatively visit the website at [www.sydneyports.com.au](http://www.sydneyports.com.au) or send an email to [portbotany@baulderstone.com.au](mailto:portbotany@baulderstone.com.au).

BH-JDN apologises for any inconvenience that this work may cause.

Yours faithfully,  
**BH-JDN Port Botany Consortium**
