PORT BOTANY EXPANSION

Ref:CR-01/LA/62

26 November 2009

Dear Resident,

### **Re: Update Service and Utility Works – Hayden Place**

---

The design and construction for the Port Botany Container Terminal Expansion is being carried out under deed to Sydney Ports Corporation by Baulderstone Jan de Nul Consortium. Construction is due for completion in March 2011.

Works to install and connect new underground telecommunications lines in the vicinity of Hayden Place, commenced earlier this year. These works will **recommence on approximately 2 December 2009** and will continue to be undertaken over a **2 week period, weather permitting**.

During these works there maybe pedestrian diversions implemented and driveways maybe interrupted. Individual residents will be approached should there be any interruptions to driveways.

The Project is committed to ensuring throughout the works any dug holes or exposed areas will be made safe. At the completion of all the services works, the affected areas will be temporarily reinstated by the Project.

Final restoration works will be undertaken by City of Botany Bay Council, at their request.

To find out more about these activities or the Project, or to register a concern or complaint about any activities related to this Project, please contact the Project Information Line (free call) on 1800 177 722, or alternatively visit the website at [www.sydneyports.com.au](http://www.sydneyports.com.au) or send an email to [portbotany@boulderstone.com.au](mailto:portbotany@boulderstone.com.au).

BH-JDN apologises for any inconvenience that this work may cause.

Yours faithfully,

**BH-JDN Port Botany Consortium**

Vincent Newton  
**Project Director**
